

EBB&FLOW

Danish Decorative Lighting
2016

"THE NEW ELEGANT - the theme sets the mood and style for new lamp models Futura and Lute as well as the range of petite crystal pendants in clusters and singles."

Susanne, designer and owner
EBB & FLOW

"The Lute pendant lamp is a modern classic. Tall and elegant and with a perfect balance between top and bottom, it sets out with a rounded base in one colour that leads up to a slim funnel-shaped top in metallic coloured glass, further extending into a metal pipe."

The inspiration behind the Lute was the musical instrument, and perfume. Think elegant vintage labels with gold lettering and delicate translucent-coloured bottles of scent."

"Futura, the slim dreamlike pendant, shapes the glass along three curves with alternating colours, metal in the middle section, and tonal colouring above and below. As the shape took shape, as it were...it reminded me more and more of a 'modern woman', whatever that is, big brainy head, beautiful neck and a rounded bottom!"

“Lead crystal is such a noble artform, when it is melted in the furnace, a quarter ‘old’ scrap crystal is used...no-one could tell me why, but this is how the clarity of new crystal is achieved. And boy is it clear – it has this impossible sparkle and clarity to it, and of course the weight gives it away.”

Carafe

"The Rowans have a very special place in my heart, they are where it all started, their simple yet sophisticated shape is brought to the fore by a multitude of sizes and colours."
